

MENLO PARK RECORDER

A PAPER DEVOTED TO THE BEST INTERESTS

OF MENLO PARK AND SAN MATEO COUNTY

MENLO PARK, SAN MATEO COUNTY, CALIFORNIA, FRIDAY, SEPTEMBER 26, 1930

No. 48

VOLUME 7

ORDINANCE OF INTENTION No. 30-1

DECLARING THE INTENTION OF THE CITY COUNCIL OF THE CITY OF MENLO PARK TO OPEN AND EXTEND LIVE OAK AVENUE FROM THE SOUTHWESTERLY TERMINATION THEREOF TO UNIVERSITY DRIVE WITHIN SAID CITY.

The City Council of the City of Menlo Park do ordain as follows:

Section 1. That the public interest and convenience require, and the City Council of the City of Menlo Park hereby declares its intention to order the following improvement to be made within said City, to-wit: that LIVE OAK AVENUE, an existing public street in said City, be opened and extended southwesterly from the present southwesterly termination thereof to the northeasterly line of University Drive, said opening and extension to of a uniform width of fifty (50) feet and made along and adjacent to the southwesterly extension of the northwesterly line of said avenue, and that the property necessary and convenient for that purpose, as hereinafter described, be acquired by condemnation, as all is more fully shown and described on that certain map entitled "Map Showing The Assessment District and Property to be Acquired for Opening and Extension of Live Oak Avenue, Menlo Park, California, under Ordinance of Intention No. 30-1", approved by said City Council and filed in the office of the City Clerk of said City September 16, 1930, to which said map reference is hereby made for further particulars.

Section 2. That the land necessary and convenient to be taken for said improvement is described as follows, to-wit:

All those certain portions herein-after and on the aforesaid map designated as Parcel A and Parcel B, respectively, of Lot 25 of Stanford Park Annex, as said lot is shown and delineated on that certain map entitled "Map of Stanford Park Annex, Menlo Park, San Mateo County, California, 1913," filed in the office of the County Recorder of the County of San Mateo, State of California, on October 17, 1913, in Volume 9 of Maps at page 9, situate, lying and being in said City of Menlo Park, County of San Mateo, State of California, and more particularly described as follows, to-wit:

PARCEL A

Beginning at a point where the northwesterly line of Live Oak Avenue meets the northeasterly line of said Lot 25, said northwesterly line of said lot being also the present southwesterly termination of Live Oak Avenue, as shown on said map, said point being distant southeasterly 22.4 feet from the most northerly corner of said lot; thence southeasterly on and along said northeasterly line of said lot 31.6 feet; thence southwesterly and parallel with the northwesterly line of said lot 151.45 feet, more or less, to the southwesterly line of said lot, said southwesterly line of said lot being also the northeasterly line of University Drive, as shown on said map; thence northwesterly on and along said southwesterly line of said lot 31.6 feet; thence northeasterly and parallel with the northwesterly line of said lot 151.45 feet, more or less, to the point of beginning; Being the southeasterly 31.6 feet, front and rear measurements, of the certain parcel of land conveyed to Peter Bergna by deed recorded in Volume 146 of Official Records of San Mateo County at page 342; containing 4785.82 square feet, more or less.

PARCEL B

Beginning at a point on the northeasterly line of said Lot 25, said northeasterly line being also the present southwesterly termination of Live Oak Avenue, as shown on said map, said point being distant 54.0 feet from the most northerly corner of said lot; thence southeasterly on and along said northeasterly line of said lot 18.4 feet; thence southwesterly and parallel with the northwesterly line of said lot 151.45 feet, more or less, to the southwesterly line of said lot, said southwesterly line being also the northeasterly line of University Drive as shown on said map; thence northwesterly on and along said southwesterly line of said lot 18.4 feet; thence northeasterly and parallel with the northwesterly line of said lot 151.45 feet, more or less, to the point of beginning; Being the northwesterly 18.4 feet, front and rear measurements, of the certain parcel of land conveyed to Katherine B. Plate, wife of Howard H. Plate, by deed recorded in Volume 385 of Official Records of San Mateo County at page 254; containing 1786.22 square feet, more or

less. Section 3. Said City Council does hereby determine and declare that said proposed improvement is of more than local or ordinary benefit and will affect and benefit the lands and district herein described, and which said district is hereby declared to be the district affected and benefited by said improvement, and that therefore the entire damages, costs and expenses of said improvement shall be and are hereby made chargeable against and shall be assessable upon the said lands and district within said City of Menlo Park; that the exterior boundaries of said district and of the lands of property owners therein affected and benefited by said improvement are particularly described as follows, to-wit:

Beginning at a point on the southwesterly line of El Camino Real, (formerly known as County Road) at the northeasterly termination thereof of the dividing line between Lots 2 and 3 of the Blake Tract, as the same is shown on that certain map entitled "Plat of Blake Tract near Menlo Park" filed in the office of the County Recorder of San Mateo County, State of California, on December 2, 1891, in Volume D of Maps at page 17; thence southwesterly on and along the southwesterly lines of Lots 2, 7, and 18 to a point midway in the southwesterly line of Lot 28 of said tract, crossing all intervening lots and streets in a direct line, said point being also on the northeasterly line of Lot 29 of Stanford Park Annex, according to map thereof entitled "Map of Stanford Park Annex, Menlo Park, San Mateo County, California, 1913" filed in the office of the County Recorder of San Mateo County, State of California, on October 17, 1913, in Volume 9 of Maps at page 9; thence southwesterly on and along a line parallel to the northwesterly line of University Drive, as said Drive is shown on said map; thence southerly in a direct line to the most northerly corner of Lot 34 of said Stanford Park Annex; thence southwesterly on and along the northwesterly lines of Lots 34 and 35 to the most westerly corner of said Lot 35 of said Stanford Park Annex; thence northwesterly on and along the southwesterly lines of Lots 31, 27, and 23 of said Stanford Park Annex to the most westerly corner of said Lot 23, crossing all intervening streets in a direct line; thence northwesterly on and along the northwesterly lines of Lots 23 and 22 to the most northerly corner of Lot 22 of said Stanford Park Annex; thence easterly in a direct line to a point on the southwesterly line of Lot 21 of said Stanford Park Annex, said point being distant southeasterly 11.2 feet from the most westerly corner of said lot; thence northeasterly on a direct line to a point midway in the southwesterly line of Lot 5 of Block 3 of the Fenton Property, according to map thereof entitled "Fenton Property" filed in the office of said County Recorder of San Mateo County November 14th, 1925, in Book 13 of Maps at page 8, said southwesterly line of said Lot 5 being also the northeasterly line of said Lot 21 of said Stanford Park Annex; thence northeasterly in a direct line to a point midway in the northwesterly line of Lot 5 of Block 1 of said Fenton Property as said lot is shown on said map, said northeasterly line of said lot being also the southwesterly line of Lot 15 as shown on that certain map entitled "Referee's Partition Map of Property at Menlo Park, San Mateo County, California, showing the division thereof among the respective owners as divided and allotted by the Referees in the Partition suit entitled Kate Johnson Estate Company, et al. vs. Clara Turbull, et al." filed for record in Volume 135 of Deeds at page 62, San Mateo County Records; thence northeasterly in a direct line to a point on the southwesterly line of El Camino Real, said point being at the northeasterly termination thereof of the northwesterly line of Lot 9 as shown on said partition map; thence southeasterly on and along the southwesterly line of El Camino Real (formerly known as County Road) to the point of beginning.

Said City Council hereby declares that all streets, avenues, roads, drives, lanes and other public ways contained within the above described district, the same belonging to said City and being in use in the performance of a public function as such, shall be omitted from the assessment to be made to cover the expense of said improvement.

Section 4. For further particulars reference is hereby made to that said certain map or plat entitled "Map Showing the Assessment District and Property to be Acquired for Opening and Extension of Live Oak Avenue, Menlo Park, California, under Ordinance of Intention No. 30-1" approved by said City Council and filed in the

office of the City Clerk of said City September 16, 1930, and now on file therein at the time of passing this Ordinance. Said map or plat indicates the aforesaid land necessary and convenient to be taken for said proposed improvement, and indicates by a boundary line the extent of the said territory to be included in said assessment district, and shall govern for all details as to the extent and description of the land to be taken for the proposed improvement and as to the extent of said assessment district, and as to the lines, limits, dimensions and extent and all details of said proposed improvement.

Section 5. All of the herein proposed improvement shall be made and proceedings had under and in pursuance of that certain act of the Legislature of the State of California designated and referred to as the "Street Opening Act of 1903", as amended.

Said City Council does hereby determine that improvement bonds to represent the assessments to be made to cover the expense of said improvement may issue under and in pursuance of that certain act of the Legislature of the State of California entitled "An Act Providing for the issuance of improvement bonds to represent certain special assessments for public improvements and providing for the effect and enforcement of such bonds" approved April 27, 1911, as amended.

Section 6. NOTICE IS HEREBY GIVEN that Thursday the ninth day of October, 1930, at the hour of 8:00 o'clock P. M. of said day, in the Council Chambers at the City Hall at 1080 El Camino Real in said city, is hereby fixed as the time and place when and where any and all persons having any objections to the proposed work or improvement or to the extent of the said assessment district may appear before said City Council and show cause why said proposed improvement should not be carried out in accordance with this Ordinance.

Section 7. The Street Superintendent of the City of Menlo Park is hereby directed to post notices stating the fact and date of passage of this ordinance, and describing briefly and in general terms the improvement herein proposed, all in the time, form and manner required by section 3 of said Street Opening Act of 1903; the City Clerk is hereby directed to forthwith mail a post card notice, postage prepaid, to each property owner in said assessment district, at his last known address as same appears on tax roll of this city, notifying said property owner of the date of passage and number of this Ordinance of Intention, and the time and place set for the hearing of protests against said improvement, as provided by said section 3 of said act. Said City Clerk shall cause this ordinance to be published twice in the "Menlo Park Recorder", a newspaper of general circulation published and circulated in said City.

Passed and adopted September 23, 1930.

W. H. WEEDEN,
Mayor.

(Seal)

ATTEST:

FANNIE I. KURTZ,

City Clerk.

CERTIFICATE OF CLERK

I, Fannie I. Kurtz, City Clerk of the City of Menlo Park and ex-officio Clerk of the City Council of said City, hereby certify that the foregoing ordinance entitled, "Ordinance of Intention No. 30-1, Declaring the Intention of the City Council of the City of Menlo Park to Open and Extend Live Oak Avenue from the Southerly Termination Thereof to University Drive Within Said City" was introduced at a regular meeting of said Council on September 16, 1930, and was regularly passed and adopted by said Council at a regular meeting thereof on September 23, 1930, being not less than five days after its said introduction, by the following vote:

AYES: Councilmen: Anderson, Blake, Crane, Dale, Weedon.

NOES: None.

ABSENT: None.

IN WITNESS WHEREOF I have hereunto set my hand and affixed the Common Seal of the City of Menlo Park this twenty-third day of September, 1930.

(Seal) FANNIE I. KURTZ,

City Clerk.

First publication in Menlo Park Recorder, September 26, 1930, last publication October 3, 1930.

Donald Derry returned from Lassen county where he spent his vacation deer hunting. He reports a fine trip and bagged a fine buck.

MENLO PARK WILL HAVE SOME STREET WORK SOON

Menlo Park's city dads met in regular session last Tuesday evening and passed two important resolutions. The first of which insured the city one of its first paved streets.

It is the intention of the Council according to this resolution to pave and put in sidewalks and curbs the entire length of Hoover street.

A second resolution of intention was passed declaring the Council in favor of opening and extending Live Oak Avenue which will be of benefit to many in that part of the city.

Both resolutions were passed to print and appear in this issue of the Recorder.

A communication was read from Attorneys Ross & Ross, representing Mrs. Katherine Plate in regard to the opening of Live Oak Avenue, and the city clerk was instructed to notify both Mrs. Plate and her attorneys that condemnation proceedings had been begun and that a permit to erect a dwelling on the portion of her lot not taken for street purposes would be granted if she made application for it.

The resignation of City Judge David Patrick was reluctantly accepted by the Council. Judge Patrick stated that owing to the pressure of other duties it was impossible for him to continue in office.

Jean Hoss was then appointed City Judge, he being considered the best qualified man for this important post.

The fire department was given permission to run their dance, to be held on October 8th to 1:30 in the morning.

Following the paying of various claims the meeting was adjourned to October 7th, at 8 o'clock.

MRS. POTTER'S HOME MADE CAKES IN BIG DEMAND

Mrs. J. Potter, formerly ow San Jose has now located in Palo Alto and is specializing in the baking of home made cakes which are meeting with a big demand from local residents. She is an expert when it comes to cakes and according to reports will have all she can do to fill the orders that are rapidly increasing.

Mrs. Potter will appreciate all orders received and will serve one and all to the best of her ability. All orders will be delivered. At the present time orders may be phoned to Mrs. C. A. Davidson, 735 Homer Avenue, Palo Alto, Phone 3627.

The cakes range in price from the family size cake at 80 cents to the extra large three layer cake at \$1.15, and are worth every cent of the money.

Give Mrs. Potter a trial and be convinced.

The San Mateo County Board of Education will conduct an examination on the Constitution Saturday, November 22, at 9:30 a. m. in the Central School, Redwood City. All teachers seeking certification who must meet this requirement are eligible to receive this examination.

NATIVE DAUGHTERS ENTERTAIN IN HONOR OF GRAND PRES.

Monday evening Menlo Parlor N. D. G. W., entertained in honor of the Grand President of the order, Estelle Evans of Antioch. The lodge hall was beautifully decorated with ferns, flowers and flags and amde a very picturesque background for the varied colors of the evening dresses worn by the members.

The Grand President complimented Menlo Parlor for the manner in which the Parlor is progressing, both financially and socially.

There were seventy visitors in attendance representing twelve Parlor from different parts of the State, among the guests present were Past Grand President Margaret G. Hill, First Grand Vice President Evelyn Carlson, Grand Secretary Sallie Thaler, Grand Trustee Annie Thuesen, District Deputy Emmeline McDonald and Super District Deputy Ida Mesquite.

After the meeting the Grand President was given a hand painted plate and Past President Larau Bartels of Menlo Parlor was given her diamond Past President's pin. Gifts were also given Grand Trustee Thuesen, District Deputy McDonald and District Deputy Mesquite. A banquet was served at the conclusion of the meeting, followed by a most enjoyable social hour.

Mrs. Ruth Dyer was initiated as a member of Menlo Parlor.

LOCAL BOY RECEIVES HONOR AT SEQUOIA UNION HIGH

As a result of the council election held at the Sequoia Union high school recently Tom Tibbs of Menlo Park is now a freshman representative on the boys' council. With him was elected Bud Durham.

In the girls' council election Barbara Dillard and Virginia Masterson were elected freshman members, and Elsie Moss and Flora Basso were elected to fill sophomore and senior vacancies respectively.

DR. WHITE-WOLF PASSES TO HAPPY HUNTIN GGROUND

Dr. Whitewolf, well known in this city and on the peninsula where he was a familiar figure, passed away in Oakland last Sunday. The doctor was ninety-three years of age, and participated in many of the wars that the Indians had with the white race.

SEQUOIA HIGH CHORALISTS PUT ON "BITS OF BLARNEY"

Over 100 Sequoia high school choralists will participate in the first opera of the season, "Bits of Blarney", an Irish comedy which is to be presented October 24th at the school auditorium.

"Bits of Blarney" is a composition of Otis M. Carrington, head choral instructor at Sequoia, and was presented once before in 1925.

SHERIFF McGRATH ELECTED VICE PRESIDENT OF ASSN.

Sheriff James J. McGrath of this county was elected third vice-president of the California Police Officers Association which held a three day convention in Long Beach this week. Chief of Police John J. Harper of Burlingame was elected second vice president of the organization.

Letter From Campbell Received By Howard

"I am now installed in my new quarters in 641 Library Place, Evanston, Ill., and I find that they are only a block away from the campus," writes Laurence R. Campbell, instructor of Journalism for the past two years now attending Northwestern university to get his master's degree, in a letter to Mr. Howard here.

"The first ten days of my vacation were spent in Fowler, Colorado, with an Uncle and an Aunt. I found that the change was just what I needed, something to get away from school and college activity. It was here that I played my first game of miniature golf and am quite keen. I also re-learned croquet. It might be a good idea to introduce both these game in the Menloak yard.

It is about a week University opens, so I have time to get settled before the mad rush of registration. Doubtless, Menlo will soon be alive with boys again. May the coming year be the best in the story of Menlo."

Menlo, 'A Melting Pot' Is Shown By Census

That Menlo is fast becoming a junior college of not only state but national note is shown by the fact that about twenty-five students out of the one hundred and eighty are from out of California. Of these, eight are from U. S. territory and one from a foreign country.

Honolulu, T. H., leads all out of state localities with six registered students. Colorado is next with four, while Illinois, Idaho and the Canal Zone contribute two each. They are followed by China, Oregon, Montana, Ohio, Wyoming, Washington, Utah, Wisconsin, and Texas with one each.

Of those from California, San Francisco leads with forty-three, Los Angeles and southern California follow with twenty-nine, while Palo Alto contributes twenty.

The Menlo Specialty Shoppe

is showing for FALL;

DRESSES and SUITS in JERSEYS,
CANTONS, TRAVEL PRINTS
and GEORGETTES

NEW FALL MILLINERY

in SMART VELVET TURBANS,

CALIFORNIA NEWS REVIEW

A '49 celebration is to be held under the auspices of the Fairfax Merchants' Association October 2, 3 and 4.

Leonard Thatcher, high school teacher at Woodland, paid a \$10 fine for shooting a bear out of season. R. L. Sinkey, game warden, brought Thatcher to court.

Drilling of the Oakdale oil well north of town will be resumed shortly, it was announced by Joe Bilas of the Oakdale Oil Corporation.

The Vallejo Commercial Bank will operate as an independent bank under the new merger plans of the Bank of America of California and the Bank of Italy. The Commercial Bank was bought some time ago by the Bank of America. Under the new plan T. J. O'Hara will remain as president of the bank.

Range fires in Santa Clara County decreased by more than 50 per cent over last year and the area burned over was but one-tenth of what it was in 1929, according to County Fire Warden Don King. This record is all the more outstanding because of the forty fires this season, seventeen were caused by a lightning storm. The fires were the first caused by lightning in that region in nine years.

San Mateo is looking forward to acquisition of a civic center by purchase of the Tobin Clark County property at El Camino Real and Ninth avenue for \$100,000. Tentative plans have been approved by the city council. The seven-acre estate would form a city park, while a two-story stucco house would house all city departments.

A flaming meteor, weighing many tons and carrying a fiery tail hurtled into the sea off Humboldt Bay recently, narrowly missing the tug Humboldt, which was piloting the Norwegian motorship Childir to the open sea. According to the crew of the tug, water was thrown hundreds of feet into the air and huge clouds of steam a half mile in extent rose from the spot where the meteor fell into the water.

When the famous old King Midas gold mine at Harrison Gulch was sold for taxes recently, Joseph Moore of Cazadero, for years shift boss and later foreman, was the only bidder. Although his bid of \$1,000 was greatly under the amount of delinquent taxes due, the Shasta County Board of Supervisors, with the consent of the State Controller, approved the sale.

The California Newspaper Publishers' Association, with headquarters in Los Angeles, filed articles of incorporation with the secretary of state. Directors named were Ford A. Chatters, Lindsay; H. R. Judah, Santa Cruz; Carroll H. Smith, La Mesa; J. Sherman McDowell, Alameda; Harvey R. Ling, Burbank; George F. Morell, Palto Alto; John E. Kinc, Hemet; M. R. Henry, Livermore; Leo A. Smith, Santa Paula, and John B. Long, Los Angeles.

A fireproof garage for housing six of the fleet of eleven large buses used in transporting rural pupils to the Porterville Union High School has been completed by R. Hodgson Sons, local building contractors, at a cost of \$5300. The same builders recently erected a three room science building for the Delano Union High School, costing \$8600, and a \$14,000 city hall and fire house for the city of Corcoran. Both these towns are located southwest of Porterville.

Of the \$16,124,986 of state funds apportioned to California elementary schools for the first half of the fiscal year ending June 30, 1931, San Francisco County received \$1,106,973, Vierling Kersey, state superintendent, announced. High schools of the state were apportioned \$1,206,142, of which \$34,007 went to San Francisco County. The total apportioned at this time was \$17,588,125, of which \$256,995 went to the sixteen district junior colleges of the state.

A one-day trip from the highest elevation to the lowest in the United States—the 14,501 foot peak of Mt. Whitney to the below sea level sink of Death Valley—was recounted by Norman Clyde, member of the Sierra Mountain Club. Clyde made the long descent in seven hours—the first man to accomplish it between dawn and dusk. He hiked from the mountain peak down to Lone Pine in three and one-half hours. An automobile carried him to Death Valley, 276 feet below sea level and fifty miles east of Lone Pine in another three and one-half hours.

That the attendance at the Pleasanton branch of the Alameda County Library was 945 during the month of August is the report of Mrs. Abby L. Walker, librarian. Mrs. Walker adds that the total number of books withdrawn was 749.

The Pacific Gas and Electric Company will erect a one-story brick and concrete service group at Auburn, Placer county. It will cost about \$38,000.

Construction of road work and new sewage system in the Middle Ridge section of Mill Valley, which was swept by fire in 1929, is expected to start on October 1, it was learned. Award of a \$90,000 contract to McDonald & Maggiora, Sausalito contractors, was announced.

Projected development of Lassen Park by building hotels and resorts was announced by Harry M. Adams, president of the Western Pacific Railroad. Adams said that railroad engineers have been surveying sites in the park with a view of construction work in the near future.

Births outnumbered deaths in Santa Rosa and adjacent territory in August, according to the report of E. J. Heigren, health officer. Deaths in the outside territory number ten, while births in the same districts totaled nine. In the city limits twelve deaths and twenty-one births were recorded.

Work will be completed by Christmas Day on the 22-mile spur from the main line of the Union Pacific near Las Vegas, Nev., to the Boulder Dam site on the Colorado River, it was announced recently. The contract, let to a San Pedro company, calls for \$115,000 worth of grading and rail laying.

Steps to provide a chemical truck and pumper for use in combating fires in the rural sections of Sonoma County are being taken at Santa Rosa by A. A. Wilkie, state forest ranger. Wilkie hopes to obtain money from the county and state to equip the fire engine, which would be housed in the Santa Rosa fire station and would be subject to call for rural communities.

A. S. Dutra, San Francisco contractor, has begun dredging a canal at Bay Point to deepen and widen it for use as a yacht harbor. The work is being done for the Bay Point Wharf and Yacht Harbor Company, Ltd., which is expending \$30,000 to provide a waterway 3000 feet in length and with a minimum depth of seven feet. Berthing space will be provided for 100 boats.

Harry M. Adams, president of the Western Pacific Railroad, has been presented with a gold spike to be used at Bieber, Lassen County, in completing the connection of the Great Northern and Western Pacific railroads. The new railroad, linking San Francisco with the Pacific Northwest, is now under construction. The spike, made of Oroville gold, was presented to Adams by Mayor W. T. Baldwin of Oroville.

Recommendations to all police chiefs that double traffic patrols be established in California cities between the hours of 3 and 9 p. m. were issued by Eugene W. Biscailuz, superintendent of the California highway patrol. Declaring that 43 per cent of all major motor vehicle accidents in the first half of this year occurred between the hours of 3 and 9 p. m., Biscailuz said he believes patrol reinforcements would be the best practical means of reducing the number of deaths and injuries.

Equal rights with men in industry is the aim of working women as expressed in a resolution adopted during the annual convention of the State Federation of Business and Professional Women at Asilomar. Equality, not favoritism, was demanded in the measure. Convention leaders assured the members any attempt by legislation to discriminate against women workers because of their sex instead of the nature of the industry will be fought.

The state division of architecture announced award of a \$25,676 contract to W. H. Robinson of Los Angeles for installation of service connections at the San Diego State Teachers' College. The division corrected its announcement that the R. R. Jones Electric Company of South Pasadena was awarded a \$2714 contract for electrical work on the kitchen and commissary buildings at Whittier State School. The award has been made to the American Electric Construction Company, Los Angeles.

Construction work on the \$6,000,000 Stockton channel, which will connect that city by deep water with San Francisco Bay and the Pacific Ocean, had formally begun with city, county, state and federal officials participating. The project, which involves deepening, straightening and widening 14 miles of the San Joaquin River, will provide a route navigable to ocean-going liners. This project, when completed in 1933, will furnish a 92 mile channel, connecting Stockton with the Pacific. It will furnish water transportation for vast quantities of interior California products at a freight rate saving of approximately nine cents a hundred pounds.

Plans for taking over the municipal sewer system from the city were outlined at a meeting of the Tulare board of public utilities. It is proposed to maintain the system through a system of fees for service and construction.

Menlo Park boasted one of the best equipped fire departments of any small city in the state today. Two new trucks were added to the department bringing the total pieces of apparatus to six. The department serves Menlo Park, Ravenswood and Atherton.

California Ranch News

What is believed to be the oldest pear tree in Nevada County has been located on the Manseau property near Grass Valley. Experts say that it is more than seventy years of age and is still bearing.

Sam Robinson of the Imperial Valley Farm Bureau is urging all dairymen to put their dairies in such condition as to meet every requirement for the retail trade. He believes that the metropolitan areas will soon have to call on that valley for additional milk.

The Santa Cruz Packing Company has been running full time since August 1 with a crew of 250 men and women and will continue the pear packing run for at least another month. Fruit this year is of very fine quality and the pack is going to be one of the best of several years, according to E. E. Huddleson, general manager.

Hosmer and Reid, bulb men, have leased a large tract of land from Carl Hankey for the growing of bulbs. This land is to be used largely for the production of gladioli. Mr. Hosmer, who is an experienced bulb grower, made a very careful study of conditions in Southern California before deciding to locate in the Capistrano district.

In Germany an "eat more fruit" campaign is in progress and the state bureau of commerce is trying to develop a German market for California fruit, declared C. C. Bowen, chief of the bureau. A trial shipment of California grapes and plums is en route to Hamburg, Germany, consigned to T. Pearson, Henderson, European trade commissioner of the bureau.

Walnut growers are urged to watch their soil moisture with special care at this season of the year, says M. M. Kimball, assistant farm adviser of Los Angeles county. Alternate hot and cool spells are hard on walnuts, and especially so if the soil moisture reserve is allowed to reach a dangerously low ebb. Summer irrigation has been shown to produce better quality and quantity, and moisture deficiency results in shriveled and poorly filled nuts.

Bean harvest in the Lompoc section of Santa Barbara county, has started. The condition of the crop this year is generally good, with some excellent fields and a few which are rather different. The lima bean growers along the coast below Gaviota Pass have suffered considerable damage recently from a hot, dry wind which blew in over the foothills. In some fields, growers have estimated as high as a 50 per cent loss.

Vista Irrigation District proposes to take a glimpse at its own development since the completion of the irrigation system about four years ago. Accordingly preparations are under way for the "Vista Products Show," which will be held October 4 and 5. The exhibits will be confined solely to products of that district. While avocados and citrus fruits will predominate, rare and unusual flowers and fruits will also be in evidence. The exhibit will be staged in the newly-erected Vista Women's clubhouse.

The Mexican fruit fly, a threat to the fruit-growing districts of California and Arizona, is believed to have passed the "zone of defense" established in the northern Mexican States. News reports told of the seizure of two lots of plums on the Arizona line, at Nogales, thought to have originated in Sinaloa. This State, together with Sonora and Nayarit, was believed to have been free of the pest. The same fruit fly has been eradicated once in Rio Grande Valley, Texas. This fruit fly, like its Mediterranean brother which caused the Florida furor, is particularly dangerous to citrus fruits.

Members of the Sacramento Fishermen's Union voted to sell their salmon catch this year direct to the public rather than accept the price of 4 cents a pound offered by San Francisco dealers. I. M. Hylen, secretary of the union, declared that the salmon would be sold at Fishermen's wharf at Pittsburg at 5 cents a pound, the minimum price for which the fishermen offered their catch. In San Francisco dealers explained there is no market this year for the type of salmon caught by the union. The fish are large and must be barreled, and a supply is yet on hand from last year, it was said.

Barley exports from the Pacific Coast the first week in September reached the total of 4,075,000 bushels, according to Wesley O. Ash of the Bureau of Foreign and Domestic Commerce. Wheat exports were 385,000 bushels and flour 21,400 bushels.

A mysterious disease has killed 450 horses in the San Joaquin Valley within the last few weeks, Dr. R. B. Griffenhagen, veterinarian, reported. Efforts to check the disease have thus far proved futile, according to the veterinarian.

The first carload of grapes for the season was shipped to New York from the Oakdale district. The car was of Zinfadels and said to be the finest ever sent out of that district.

The almond crop this year will be the largest in the history of the Oakdale district and in excess of the record breaking 1928 crop—so large, in fact, that the Oakdale Almond Growers' Association has begun construction of a new warehouse to care for the extra tonnage.

Amendment of the famous "sawdust pack" grape inspection injunction granted a year ago at the request of San Joaquin packers restored all grapes to full inspection authority of the California standardization act. The announcement was made by Director of Agriculture G. H. Hecke and marks the end of widespread "subterfuge" packing in the state as a means of evading inspection of an important part of the 1930 grape pack.

The Orange County Fair, running from September 30 to October 5, is congratulating itself on the outlook for 100 per cent increase in live stock exhibits. During the last few years, dates of this fair have conflicted with those of the State Fair at Sacramento. By setting the time about a month later than usual, the committee has been able to avoid all conflicts.

The drying of more than 3300 tons of fruit, including peaches, prunes and grapes, and the expenditure of between \$15,000 and \$20,000 in pay roll and equipment are expectations for the Locust Grove Fruit Company, which opened its drying yard two miles north of Exeter recently. Automatic dippers and prune graders have been installed, ready to handle the prune crop. The drying yard covers approximately twenty acres.

Sonoma County's grape crop will be only 30 to 50 per cent of normal, and will bring the growers from \$35 to \$40 a ton, f.o.b. loading platform, according to Dewey F. Baldocchi of Mt. Olivet, owner of one of the county's largest vineyards. Baldocchi declares there is a constantly increasing demand for Sonoma County juice grapes, and that buyers are willing in many cases to pay \$5 to \$10 per ton more for the Sonoma product.

Reforestation in the United States last year restored to tree growth a total of 111,175 acres, the Forest Service of the United States Department of Agriculture reports. This included the planting of 31,430 acres by twenty-one States and two Territories, 5920 acres by municipalities, 25,088 acres by industrial organizations, 539 acres by schools and colleges, and 1516 acres by other organizations. Farmers planted 24,825 acres to windbreaks and woodlots, and other individuals planted 3650 acres.

Through co-operative action by the rabbit department of the Los Angeles County Farm Bureau and the Southern California Rabbit Butchers' Association, the sale of Australian wild cottontail rabbits in the local markets has been stopped completely. The ban was possible because the rabbits have been misrepresented as "New Zealand hares," and the dressed carcasses have been sold without the liver attached. Health authorities of Los Angeles city and county, on this showing, stepped in and stopped the sale. The imported rabbits were sold at less than half the price asked for hutch-raised, cereal-fed local rabbits and were causing a loss to producers and butchers of about \$6000 per month, Farm Bureau officials declare.

Although confident there will be no attempts by growers to violate their contracts to sell their grapes to the California Grape Control Board, Frank H. Wilson, in charge of grape purchases for the board, stated that steps will be taken to police the vineyards. "A grower who sells his grapes to the Control Board, and then seeks to sell them again outside not only violates his contract, but violates the very thing for which the program is established, the protection of the markets from too many grapes," Wilson said. "In case there are any such cases, though I do not believe there will be, we shall lay the matter before the courts for adjudication." Shipments of grapes from the State reached a total of 444 cars, bringing the total for the season to that date to 7,417 cars as compared with a total of 5,913 cars to the same date last year.

Recent estimates received and tabulated by the California Almond Growers' Exchange indicate that the crop will be larger than was forecast earlier in the season and should be near the tonnage of 1928. The present approximation, as announced by the government crop-reporting service, is 22,000 tons for the whole State, while the exchange figures on 15,000 tons. With low levels for food products in the markets, expert merchandizing will be required, and the exchange is now engaged in a survey to aid in developing every possible outlet.

Daddy's Evening Fairy Tale

MARY GRAHAM BONNER

THE BARNYARD

"Gobble, gobble, gobble," said the little turkeys. "This is the time of the year we begin to be well fed, for people are thinking that some fine holidays will come in a few months."

"Hurrah for Thanksgiving Day and hurrah for Christmas Day! Gobble, gobble, gobble."

"I wouldn't be so happy at the thought of being eaten," said Mrs. Goose in her shrill voice.

"We wouldn't expect you to be," said Mr. Turkey. "All the world knows you're a goose, and we can't expect you to know so much about great matters."

"Now don't be rude to Mrs. Goose," said Mr. Gander in a shrill voice. Both Mr. Gander and Mrs. Goose had very shrill voices.

"Ha, ha, gobble, gobble, gobble, gobble," laughed the turkeys. "We can't expect you to know so much about great matters such as food, or about any great matters. You're only a gander."

"Quite as fine to be a gander as it is to be a turkey," said Mr. Gander to Mrs. Goose, and she answered:

"Quite. In fact, it is better to be a gander than a turkey."

Just then old Billy Goat came along.

"What's all the shrieking about?" he asked. "Has there been a fuss of any sort?"

"Only an argument, only an argument, gobble, gobble, gobble," said the turkeys.

"Only an argument," shrieked Mrs. Goose, and Mr. Goose added:

"Only an argument. We don't agree with each other—the turkeys have such strange ideas."

"Of course, as they are turkeys it may be all right, but from our way

"What's All the Shrieking About?" He Asked.

of looking at it, it is certainly very queer."

"Grunt, grunt, grunt," said Porky Pig. "Let's enjoy life while we may."

"Let's enjoy our food and our barnyard and have a nice, lazy, eating time."

The other pigs gathered around and squealed and grunted that they felt the same way about it, and the turkeys and the geese laughed.

Perhaps, they decided, after a little while, the pigs were right.

And at this moment the farmer arrived with some food and they all had a splendid meal.

They didn't argue about the meal. They all agreed that it was good.

And after it was over they all went to sleep and had pleasant dreams—dreams of food!

They awoke feeling so refreshed and so happy and they did not argue again for quite awhile.

Subtracting Easy

The mind reader, who can tell your name by merely seeing your initials on a paper, has nothing on the person who is able to pull this clever subtraction stunt. Rarely can an audience tell how it is done, and when you work it they'll all think you have a magical mind.

Show the group you wish to play the stunt on how they must do their subtraction problem. Write a number on a chart or blackboard and underneath it the reverse of the number. It may be anything less than a thousand, but should have three digits. Should the reverse be larger than the first number, put it above. At any rate, subtract the smaller from the larger.

Then tell each in the group to take a different number, subtract the reverse and then tell you the last digit in the number, which is the answer. You will immediately be able to tell them the entire answer.

Here is the solution to the trick: When a reverse number is subtracted from its original the middle digit of the answer is always nine. The sum of the first and last digits also is nine. Given the last number, you can easily tell by subtracting what the first is. Try some numbers and you'll find it always works.

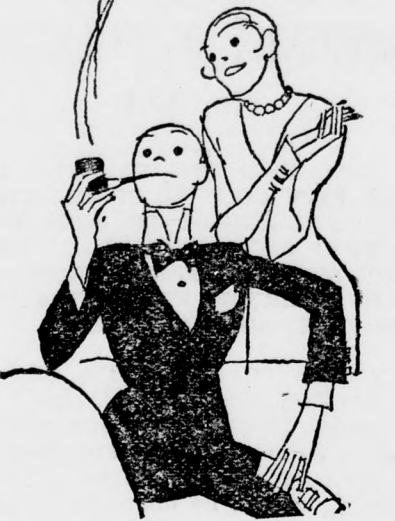

What Am I?

I am a word of letters seven—and it doesn't matter if you happen to write me backwards or forwards, I am just the same. I am something that you appreciate on a really hot day, especially after a strenuous game. Answer—Reviver.

Not in Modern Days

Teacher—Mary, why doesn't the lamb follow you to school nowadays? Mary—What, with me driving 40 miles an hour?

Let Sir Walter bring peace to your household

YOUR pipe is in right with friend wife the moment she gets that new and milder fragrance of Sir Walter's favorite mixture. A welcome blend of choice, mild tobaccos, kept fresh in a heavy gold foil wrap. Be fair to yourselves, men, and fair to the fair sex. Let Sir Walter make your pipe a pipe of peace.

SIR WALTER RALEIGH

Curious Old Watch
A watch more than a century old, built on the "chain-drive" principle before there was any such thing as "stem-winders" is the property of Arthur Kimball of Augusta, Maine. Mr. Kimball found the watch between the walls of an old house he was tearing down in Ferrisburg, Vt., and found in its case a paper telling the name of the maker. On the back of this paper was the annotation that the watch was sold September 15, 1827.

True dyes are easiest to use!

Dresses, drapes or lingerie look new when they're re-dyed with Diamond Dyes. No spotting or streaking; never a trace of that re-dyed look. Just rich, even, bright colors that hold amazingly through wear and washing.

Diamond Dyes are the highest quality dyes you can buy because they're so rich in pure anilines. That's what makes them so easy to use. That's what they've been famous for 50 years. 15 cent packages—all drug stores.

Diamond Dyes

Highest Quality for 50 Years

Freak in Rose Growing
Mrs. Ruby Martin, Roanoke, Va., has grown two roses of distinctly different colors in bloom on the same twig of the same rosebush. Roanoke Rose society representatives found the stem was of abnormal size and described the phenomenon as a bud mutation or "sport." The bush is of the "Frau Karl Druschki" variety, sometimes known as the American White Beauty. The two blooms grew on a nine-inch stem and had individual stems of three inches each.

Don't tell a New Yorker that you wouldn't live in New York on a bet. It's such a chestnut.

Community Building

Up-to-Date Community

Looks to the Future

The planning of cities and towns is a growing civic activity. It was only a few years ago that the first real city plan was worked out. Now two-thirds of American cities and towns of more than 25,000 population have plan commissions working for the orderly development of these communities. There are 208 in all, according to a report issued by the Department of Commerce. But what is even more interesting, because it has in it an element of surprise, is that of towns of less than 25,000 population, ranging down to as low as 501, there are 483 that have either plan commissions or individual commissioners planning for the growth, the facilities and the attractiveness of their respective places. While the great possibilities of courageous city planning will be realized in the large centers, some of the most interesting achievements doubtless will be in smaller places, where relatively more can be done with comparatively small outlay. There is increasing incentive for town improvement of towns, large and small. There are the merits of the improvements themselves, the aspiration and satisfaction of better standards of living. But there also is the element of competition, in business and in enterprise.—Kansas City Times.

Home's Value Added To

by Proper Landscaping

When conditions make it possible for the family to buy or build a larger and better home, the probable resale value of the property is an important consideration either in obtaining financing for the new structure or in disposing of the old one, and the landscaping of the surrounding plot will in turn considerably affect the value of the property.

Trees, shrubbery and plantings in general give to the house background of traditional hominess that is difficult to obtain in any other way and have a never-ending influence upon those who live within the house as well as those who pass by.

Beauty in the development of the garden is a matter of starting right and then going on in the same direction. Beautiful gardens do not just happen. The placement of the background plantings plays an important part. Informed opinion from your

florist and study of garden schemes in standard publications are easily accessible guides against mistakes.

Contractors' Responsibility

As a decisive move in a program launched to safeguard the public from the acts of irresponsible contractors the bureau of contract information has been incorporated under the laws of Delaware.

Data on the manner in which each general contractor in the United States has fulfilled past contract obligations is to be gathered and utilized in an effort to eliminate conditions that have made for irresponsibility in the construction industry. This was announced by the Associated General Contractors of America and comes as the culmination of several years of debate about practices involved in the writing of surety bonds.

The undertaking is a venture in co-operation between surety companies and organized contractors, although it is independently organized as a fact-gathering and investigating agency.

Shingles Grow in Favor

The picturesqueness of wood shingles for walls and roofs appeals strongly to home builders who prefer the quaintness of the simpler colonial homes. Shingled roofs may be developed in soft colors that mellow with time. A pleasing effect may be had with a blend of two or more colors.

The roof is seen before any other part of the house; therefore, be sure you have chosen the most pleasing color scheme for it. This is next in importance to the kind and quality of roofing selected.

Highways and Cities

Trunk highways around cities, rather than through them, are seen as a solution of traffic congestion. More distributing routes, instead of excessive widening of existing roads, are prescribed by D. R. Lamson, engineer of the American Road Builders' association, after a national survey of traffic conditions. "Population centers are the nuclei of congestion. Traffic in large cities is making transportation by horse-driven trucks cheaper than by motor vehicles."

Trees Aid Brick Designs

Wooded settings are always desirable with the brick house. There is something especially attractive about the play of light and shadow on a brick facade, particularly when the sunlight comes stealing through the foliage, glinting here and there upon an unusually colorful brick.

Co-Operation and Business

The right kind of co-operation among business men of a community can be an asset to both business and the community.—Lewin Journal.

Progressive City Sees

to Its Attractiveness

While much emphasis is being placed—and rightly—on the advantages that Indianapolis possesses as a commercial and industrial center, which are many and obvious, not enough thought or effort is directed to making it attractive as a place of residence. The men who work here have to live here, and therefore the town must be a good deal more than a workshop.

While we have a fine start, there is much that might and should be done to increase the advantages that we already possess. We are richly endowed with churches, schools, libraries and art facilities, all of which make a strong appeal to those seeking new homes. We have our clubs, municipal playgrounds, golf courses and swimming pools and parks, and these are very important assets.

Valuable as they are, other things are needed. People like to live in comfort and amid beautiful surroundings. A campaign for the beautification of the city would yield rich returns. There should be greater care for our trees and a planting of new ones, even in streets supposed to be doomed to treelessness—certain of our business streets, for instance.

The campaign against the smoke evil will, just as far as it succeeds, contribute to both beauty and comfort—contribute very largely. For cleanliness is an element in both. Dinginess is certainly not attractive. Nor is it sanitary. Beauty, cleanliness and comfortable living conditions are all the marks of a wideawake and progressive community.—Indianapolis News.

Pennsylvania in Move

to Beautify Highways

Community and civic organizations throughout Pennsylvania have been called upon to carry out plans of roadside development and landscaping to supplement construction of highways. The appeal was made by the Pennsylvania Motor federation.

"Pennsylvania has spent and is spending millions of dollars for the construction of fine roads," S. Edward Gable, president of the federation said. "In connection with this there should be in each community a program of tree planting, landscaping and roadside care which, when completed, not only will make the roads more pleasing to the eye, but will give to the traveler a much better and pleasanter impression of the community."

"There is little reason why the wind-swept, sun-baked stretches of concrete roads winding through the countryside should not be made more gracious to the eye by the planting of trees and flowers and roadside landscaping. The possibilities of roadside beautification are unlimited, and, if handled by community enterprise in co-operation with the proper authorities, can be worked out without burdensome expense."

Zoning Laws in 856 Cities

Early this year zoning ordinances were in effect in 856 cities and towns in the United States.

Bronco Yearlings To Meet Oaks In 1st Campus Match

Students here get their first glimpse of the Menlo Junior College football team, 1930 edition, this afternoon at 3 o'clock when Santa Clara University's freshmen, 44 strong, invade the local campus for the opening practice contest for both elevens.

Santa Clara rules the favorite to win by one touchdown, but it is probable that both schools will break into the scoring column. If the comparative strengths of the two defenses are to be taken into consideration as the final judgment of the squads, Menlo will probably be an even bet, but the additional seasoning that the Broncs have had this season will probably stand them in good stead and bring them a win.

Starting lineups are being withheld until game time. Coach Dud De Groot of Menlo has had several conferences with his assistants — Russ Sweet, Herb Fleishhacker and Jay Tod—but apparently they are not releasing their opinions until the final pep talk.

The injury suffered by Crawford ("Bud") Shreve, tackle and captain of the 1928 Palo Alto high team which won the North Coast Section championship, caused a slight revision in the forward wall. Shreve hurt his right knee when tackled during a ball toting scrimmage Tuesday afternoon. He will be out of the lineup for probably two weeks, although he may get in shape for the Santa Ana game.

Four ends of equal calibre were causing consternation in the selection of a wing mate for Captain Al Norgard, who is slated for the right flank position. Charlie Baracchi, Art Rice, John Von Saltza and Charlie Bechtol all are about equal, although it was considered likely that Baracchi would get the call.

Chuck Rogers and Gordon Dunn are about a standoff for the tackle position left vacant by Shreve. Rogers has more speed, but Dunn has the beef, so who gets the call is still a matter of discussion.

Aubrey Stringer and "Frenchy" LaCombe were battling evenly for fullback. Stringer is much the better passer and has more drive, but LaCombe is more tricky in a broken field. Both punt well.

The other posts will probably see the following men: McLellan, right tackle; Orr, left guard; Sandholdt,

Sequoia Gridmen To Give Menlo High First Test

After two weeks' practice, Coach Bill Hubbard's high school footballers are rounding into good shape. Today they were to meet their first test of the season when they tangle with Sequoia high at Redwood City. At the present writing it is difficult to predict the outcome for the Menlo squad has not been under fire. Sequoia, in two starts this season, has shown itself to be a light, fast outfit with lots of fight.

The starting lineup will probably be announced a few minutes before the game. The tentative Menlo lineup is as follows: Thomas at center, Captain Will at right guard, Jim White at left guard, Cockburn at outside tackle, Wright inside tackle, Cotton right end, Day left end. The backfield in all probability will be as follows: Scott Gunn, back man, Ken Williams, up man, Jim Anderson right wing, and Bill Bippus left wing. Although the team has not been seen in action, it is believed that it is capable of giving a good account. Plenty of fight and pep has been in vogue at practice and the team is determined to get somewhere.

With the addition of Walter Heinecke to the coaching staff the line should develop into a well organized unit.

Several lightweights of last year's squad are giving an account of themselves outstanding among which are Chips Day, Captain of the lightweights of '29, and Bill Flanders at half. Flanders although quite light makes up for weight in fight and drive, and there is no doubt that he will be seen in action considerably this coming season.

right guard; Whitaker, center; Peacock, quarterback; Wilton and Shestian, halves.

NEW IMPROVEMENTS FEATURE DINING ROOM

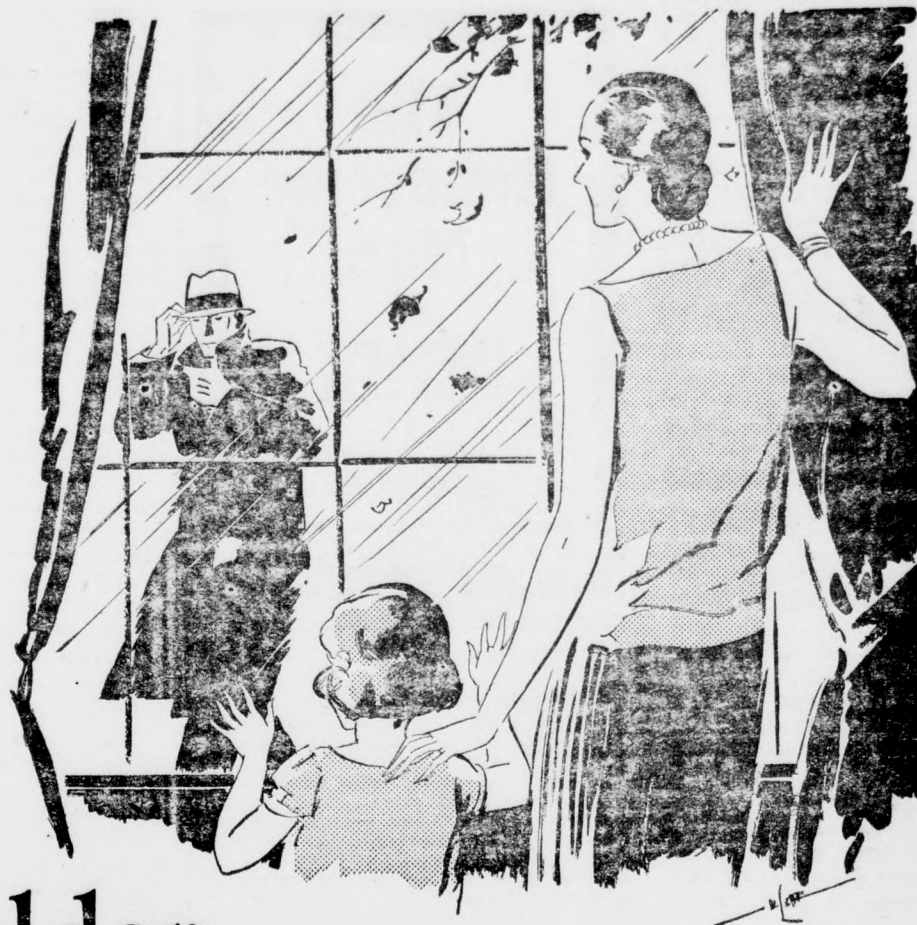

REMODELED ROOMS MAKE THE SEATING CAPACITY TWO HUNDRED

With the opening of the fall term, great improvements in the dining rooms will be made as announced by Miss Reilly, dietitian. The Junior college dining room was completely remodeled and a new private dining room was added. The whole system of dining rooms was also painted. With the addition of the private dining room there are now four rooms seating about two hundred persons. Beside the private dining room, there is the senior college, the small boys and the president's dining room. The kitchen also announces the addition of a new modern frigidaire.

Colder

days are coming

Gas-fired heating is clean and care-free

Colder days are coming. So plan now to have convenient warmth and comfort.

With modern gas-fired heating equipment, your finger's touch controls the heat. You make no trips to the basement on cold mornings. You build no fires. Mother does not tend the furnace when father is away.

And gas is a clean fuel. All burnt gases go outdoors through the chimney without mingling with the pure, warm air in your home.

As a result, your furniture, upholstery, and curtains stay clean. The exterior of your home does not need re-painting so often.

Come into our office or a dealer's store and see the Furnaces and Boilers for heating the entire home. There are also Floor Furnaces and Circulating Room Heaters for homes having no basement and Radiantfires for the fireplace. Just telephone and a competent heating specialist will call and gladly discuss the heating of your particular home.

BAYER ASPIRIN
is always **SAFE**
BEWARE OF IMITATIONS

UNLESS you see the name Bayer and the word genuine on the package as pictured above you can never be sure that you are taking the genuine Bayer Aspirin that thousands of physicians prescribe in their daily practice.

The name Bayer means genuine Aspirin. It is your guarantee of purity—your protection against imitations. Millions of users have proved that it is safe.

Genuine Bayer Aspirin promptly relieves:

Headaches Neuritis
Colds Neuralgia
Sore Throat Lumbago
Rheumatism Toothache

No harmful after-effects follow its use. It does not depress the heart.

Aspirin is the trade-mark of Bayer manufacture of monoacetic acid ester of salicylic acid.

USE
GLENN'S
SULPHUR SOAP

Skin eruptions, excessive perspiration, insect bites, relieved at once by this refreshing, beautifying toilet and bath soap. Best for Soft, Clear Skin

BOILS
HEALED OVERNIGHT

Specialist's salve. Carbolic, stops pain instantly. Heals worst boil overnight. Get Carbolic from druggist. End pain quick. Boils vanish in quickest time ever known.

World's Finest Organ
The largest and finest pipe organ in any church in the world was recently dedicated in St. Patrick's cathedral, New York. The organ cost \$250,000 and required three years to build it. There are 11,000 pipes. Before the instrument could be installed it was necessary to reinforce the structure with steel beams and supports.

Preference in Prizes
Mrs. Helen Wills Moody has won a Wimbledon cup four times, but she has never seen it. She doesn't even know whether there is such a cup; she thinks it must be imaginary. "Anyway," she said, "one plays theoretically for a cup and gets something much nicer in the way of a bowl or a picture, which is much better for the home."

Law and Medicine
A law is much like a doctor. The better it works, the less it has to do.—Grand Rapids Press.

Makes Life Sweeter

Children's stomachs sour, and need an anti-acid. Keep their systems sweet with Phillips Milk of Magnesia!

When tongue or breath tells of acid condition—correct it with a spoonful of Phillips. Most men and women have been comforted by this universal sweetener—more mothers should invoke its aid for their children. It is a pleasant thing to take, yet neutralizes more acid than the harsher things too often employed for the purpose. No household should be without it.

Phillips is the genuine, prescriptive product physicians endorse for general use; the name is important. "Milk of Magnesia" has been the U. S. registered trade mark of the Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1875.

THE STORY
Returning to London, practically penniless, after an unsuccessful business trip, Sir George Sandison takes dinner with his widowed stepmother, his old nurse, "Aggy." He did not approve of her marriage to his father, but her explanation satisfies him. Little is left of the estate, and Lady Sandison proposes that they go to the United States to visit her brother, Robert MacBeth, wealthy contractor. Sir George agrees. MacBeth lives on an island estate with his daughter, Roberta, who longs for city life. MacBeth is a victim of arthritis and almost helpless. MacBeth is glad to see his sister and asks the two to stay. Roberta is keeping a date with Jack Navarro, about whom she knows little. MacBeth arranges for his motor to take charge of the household and George to act as secretary. Roberta does not approve of the arrangement.

CHAPTER IV
—8—
Her father had automatically cut off the greater part of Roberta's allowance, when her aunt became housekeeper. Roberta had had a stormy interview, in which her father had told her that as she was not willing for housekeeping. He had explained to keep house she would not be paid to her, in his business voice which was calm and devoid of any feeling whatever, that Lady Sandison had offered to do without payment, but that of course he would not permit.

"I recognize," he said, "that it is a job to run a big house. I recognized it when you tried it. That's why I increased your allowance, and that's why I reduce it now."

"Tried!" Roberta flashed out passionately. "I did it."

"After a fashion," her father told her, "but you didn't put your mind on it. You disliked it and you didn't do it very well. Witness your pulling out yesterday, and leaving a crippled man alone without a servant to attend to him, or to the unexpected guests who arrived."

"Guests should not come uninvited and unexpected all the way from Bonnie Scotland," said Roberta flippantly. "Neither should relatives come without warning. Lady Sandison took that chance when she came here dragging Little Beauty with her."

"You don't like him, do you?" asked her father, ignoring the rest of her speech.

"I haven't bothered my head about him," Roberta told him angrily. "He's your guest, or employee, not mine."

"Just so. Well, he's not to be made to feel himself in the way."

Roberta opened her eyes.

"I mean what I say," Rob MacBeth went on, still using his business manner and voice. "He's valuable to me. I like him, and as he's a young man he's to be paid some attention by the younger member of my family. I mean by that you are to see that he is properly introduced to any young people who come, if I'm not here. I'm not asking you to sacrifice yourself or do anything that might bore you."

"I won't," Roberta promised him with vehemence.

Her father held back the things he would have liked to say to her, and went one step farther along in his campaign to bring Roberta to her senses.

"Since you don't care for housekeeping, Roberta, and I must pay a housekeeper, have you thought of anything you would care to study?"

Roberta gave him a prolonged stare before she answered. "Study? Why, I've left school."

Her father nodded. "Still you won't like hanging around idle, will you?"

Roberta opened her mouth and spoke, as is the habit of the younger generation, without thought and with heat, forgetting how wary are these middle-aged people—how quick to perceive and use any loophole given them.

"I don't know what I want. Except to get away from this place."

"Girls who don't know what they want are dangerous animals to let loose in strange surroundings. When you know what you want come to me and we'll talk it over. Happiness, by the way, comes from within."

She hated him for his reasonable-ness.

Looking at her his face softened. "There was a time, Roberta, when you would have come to me and talked it over."

It was true. To her, as a child, her father had been some one great and powerful, whose coming meant gifts and fun, circuses, party clothes and treats innumerable. To be with her father, to walk beside him, silent or chattering as his mood permitted, to travel with him, to go to his office and see him monarch of all; to be made much of and to be admired by him and his friends, was as near

heaven as this earth could give to Robert MacBeth's little daughter. It was different now. Now she wanted to arrange her own life, be happy in her own way, and here her father, once her greatest ally, to whom she ran for advice and suggestions, was decidedly in the way.

"Don't you feel like going over your plans with me?" Her father had been studying her downcast face.

She shook her head. She was oppressed with a desire to climb into his lap, to put her head against his shoulder as she used to do, but she would not yield to it. So across the gulf of the years that separated them, they looked at each other helplessly.

Helplessness being a state that Robert MacBeth was unaccustomed to and declined to accept, he said peremptorily: "Well, when you want me I'm here, my girl, and meantime what shall we do to make your aunt's visit pleasant?"

"I think you can manage that between you without my help," snapped Roberta.

"Just as you like. I thought it might amuse you to engineer it. Sir George will be a bit of a sensation here, don't you think?"

"I don't know. He doesn't interest me in the least."

Her father's face expressed a not too polite incredulity. "Since when?" he asked.

"Since I first saw him."

"Why?"

"Oh, I don't know. He's good-looking enough but he has no—"

she felt

He Waited, but Roberta Did Nothing but Blow Smoke Rings.

her father's amused eyes upon her and blurted it out, "no sex appeal."

Her father shouted with laughter and, mortified, Roberta withdrew. She had seen Sir George coming from the library as she fled to the summer house, while her father still roared with delight over her last speech.

Would he tell Sir George? Roberta's face burned.

It was little less than marvelous how Lady Sandison took hold of the housekeeping. Roberta, anticipating the terrible awakening her aunt would have when she encountered the usual American housekeeping difficulties, had so far been disappointed. Lady Sandison knew, none better, how housework should be done, and she saw that it was done in just that way.

She knew that in Roberta she had an enemy rather than an ally. Therefore she asked her brother, casually, how much his household bills amounted to on an average and being told, and shown the bills for the last few months, she had interviewed the new cook, stated the limit within which the bills were to be kept, promised her a bonus for any saving, and wiped that worry from her mind. She knew she had an ally in the new cook now, had made a possible saving for her brother's purse, and later, when she knew more, she could be more drastic. Lady Sandison, like most Scots of her class, was careful rather than mean, and provided well for both family and servants.

She was busy working out her plans, and adjusting herself to this vastly different life, with its vastly different needs, that she found herself plunged into. She was likewise very much concerned about her brother. It was her opinion that Rob was far too young a man to be crippled in this manner and she was planning an energetic campaign in which she meant to enlist the doctor, to get Rob to take a holiday far from domestic and office worries. But Rob would be hard to move and Roberta promised to be a barrier to any plan that took him from home just now.

Sunshine flooded the terrace, his island was steeped in beauty, yet

Doughboy Meant Well, but French Was Weak

After the American doughboy had been in France for a few months he picked up a few words of the language, and with admirable confidence began conversations with the French people that are remembered to this day as examples of how French ought not to be spoken.

After they had returned from the Lunerville sector a soldier of the First division, billeted along the canal below Bar le Duc, saw the cow belonging to his landlady escape from a field and start up the road. He rushed into the house, and in his best French told her what had happened. She failed to understand and the services

of a French soldier were called in, who informed her what had happened. She hurried out, rounded up the cow, and after returning to the house, laughed for about five minutes at the puzzled doughboy. It developed that his message ran something like this: "Mademoiselle, mademoiselle, your milk is taking a walk."

Robert MacBeth shook his head as he spoke to his sister:

"It was a mistake to tell Roberta your title."

"It would have been a bigger mistake to make a secret of it," said his sister, "and Roberta's no easily fooled. If you had tricked her she would have been just wild. She's red-headed."

"I don't recognize her at all," said Roberta's irritated father. "Six months ago when she left school, you wouldn't have wanted to know a sweeter or better mannered girl."

"Who's the man?"

Robert glanced at his sister. "You're daft, Aggy! She's a mere child. She's popular enough with the boys, but there's no man. At least there's no one in particular, that I know of."

"It's the one you don't know that counts. She has something up her sleeve. What is it?"

Robert MacBeth shook his head. "She hates the island," he admitted reluctantly.

Aggy looked about her and sighed. "It's a bonnie place. But you never can tell about young people."

There was a pause.

"Was there nothing Roberta ever asked you to let her do, Rob, and you refused?"

He shook his head. "Not any one particular thing. I think she had an idea she'd like to go abroad, but I thought that would come later. Anyway she hasn't made any clamor about it."

Aggy nodded her head. "Well, it will break out somewhere, and where you least expect it. I wish she'd fill the house with young folks. I'd like fine to see her amused."

"I'll give a party for you and Sir George. That'll stir up things maybe."

"Maybe," agreed Aggy and sighed.

"I wish she liked me."

Rob sighed, too. "It's strange the two women I like best will neither of them like each other."

"I like her fine," declared Aggy.

"It's me she cannot thole. She's under a good deal of strain, Rob. I wouldn't give this party unless she wants it. You're likely to have her make it a terrible failure if you give it before she's agreeable."

"I wish I knew what to do," said Roberta's father. "I know this is only a temporary phase of Roberta's character we're seeing now, but I don't like it. It gives an entirely wrong view of Roberta. When she is nice—is herself, I mean—no girl could be sweeter."

"I take your word for it," said Lady Sandison.

.....

The doorway of the summer house darkened but Roberta did not look up.

"I beg pardon," Sir George said softly. "Sorry to disturb you."

"I'm not disturbed," Roberta told him coldly. "What is it?"

She looked up at him and at once perceived her error in so doing. Ye gods! But he was handsome! Of course, he knew it. I'll show him he leaves me cold, she thought to herself.

He was looking at her questioningly. If Roberta could only have guessed it he too was disappointed in the island. It was beautiful, it was peaceful, but he might as well be in Sandisbræ for all the excitement he was likely to find. Save for American slang and American manners and this girl's studied rudeness, life was as smooth as a mill pond.

"Smoke?" he asked and offered a cigarette.

"Father doesn't approve."

"Oh, well," Sir George said easily, "fathers have to have some prejudices, but I must say your old lad is remarkably free from them. Seldom met one more open-minded."

"Yes?"

"Jolly good sort, if you ask me."

"I didn't."

"What? Oh, yes, quite so," Sir George smiled. She was a pretty thing, this red-headed girl, even if she was a trifle brusque. "Well, then, I volunteer the remark."

He waited, but Roberta did nothing but blow smoke rings. The middle-aged might be a puzzle to her but she flattered herself that she knew her own generation. This young man had come out to make himself agreeable. Well, he would be left to do it all by himself.

But she had mistaken her young man. He looked off over the river and then back at her. "Got something rather awkward to say to you," he advised. "Fact is there's a young man on the mainland been trying to attract your attention for some twenty minutes."

"Where is he?" Roberta asked, her face stiff and masklike. To her utter chagrin she felt it stiffen. It must be Jack. Why did he make a fool of himself by coming here and not coming to the house openly?

"Over beyond the bridge on the road. He has left his car—rather a spiffy car. He's down on the towpath now."

(TO BE CONTINUED.)

Can I Learn to Fly?

by **William R. Nelson**

How to Enroll

"CAN I learn to fly?"

To answer that question I decided to take a course in piloting an airplane. That decision led me to some unusual experiences. And it picked several bubbles regarding flying machines, flyers, and flying itself.

Uncle Sam's Department of Commerce is interested in commercial aviation, I learned first. That department's aviation section "lays down the laws" governing commercial flying, flyers, airplanes and flying schools. It says who can and who cannot fly. How, when, and where they may do so. In what types of planes. And how and what students must be taught.

To enroll for a pilot's course at a school approved by the Department of Commerce, one must first pass a rigid physical examination given by a physician designated by the department. Two examinations are offered. That for the student who plans to make flying his or her business, being more complete, costs \$15. The other, for the private flyer, costs \$10. The fees are standard.

The examinations, too, are standard and are similar to insurance examinations plus unusual tests of the sense of balance, ability to judge distance, and for color-blindness.

Flying courses are of three standard lengths, each training the student for a particular pilot's license. Costs vary, of course, but do not exceed these: Private pilot's license, \$600; limited commercial pilot's license, \$1,300; transport pilot's license \$4,500.

These prices include all costs except board and room. The student is insured against personal injury and death and against liability for damage to the plane or other property.

The course for the private pilot's license generally calls for twenty hours of flying—ten of instruction and ten of solo or flight alone. The limited commercial license requires fifty hours in the air. And the transport license stipulates two hundred hours of flying time.

Department of Commerce rules governing approved schools require students and instructors to wear parachutes, but no jumps in them are stipulated.

The license tests include both flying and written examinations, the written portion covering studies taught in ground school classes. Such courses can be taken ahead of the flying lessons or concurrently with them.

First Instructions

LEARNING to fly starts with advice about the correct mental and physical attitude the student should assume.

"Be yourself," cautioned my instructor. "Be natural, and, above all else, be relaxed. We instructors will excuse everything else you do if you will remember to be light on the controls."

I was loaned a helmet that had speaking tubes connected to it. Next a parachute was explained and put on. "The rule with the chute is: jump, count five, then pull this handle," my instructor explained.

The handle protrudes from a pocket that opens vertically, just over the heart. One quick jerk on it releases the "pilot" or small, umbrella-like "chute which pulls the big 'chute out of the pack."

My instructor next drew a map of the airport and its surrounding landmarks, explaining he would show them to me from above. "This is 'home' and it is important that you recognize it readily from the air," he explained.

Next I was shown how to climb into the rear seat of the two-seated, dual controlled, plane. Seated, with my parachute pack as a cushion, the seat strap clamped tightly across my lap, the instruments and controls were pointed out, named, and their uses explained.

"The control 'stick'—a rubber handled vertical lever that stands between the knees—is moved backward to make the plane climb, pushed forward to go down, inclined to the right to turn right and to the left to turn left," he said.

The rudder, also used in turning, is operated with the feet. To turn right, push the right foot; to turn left, push the left foot.

I was cautioned to familiarize myself with the altimeter which tells the altitude, the air-speed indicator, the oil pressure gauge, and the tachometer which tells the revolutions per minute the motor is turning; and to learn to read them at a glance.

My instructor climbed into the seat ahead of me, connected the speaking tube to my helmet, opened the throttle to "revv up" the motor to check its functioning, ordered the blocks taken from in front of the wheels and we were off.

Anyway It's Safest

"Whenever I attempt to reason with my wife," complains an argumentative husband to the Columbia Record, "she simply won't listen and I never get anywhere. Please advise me what you'd do." "I wouldn't," admitted the wise old editor. "The best way, however, to debate with one's wife, is to go out behind the garage and smoke your pipe."

After 40 Bowel trouble is Most Dangerous

Constipation may easily become chronic after forty. Continued constipation at that time of life may bring attacks of piles—and a host of other disorders.

Watch your bowels at any age. Guard them with particular care after forty. When they need help, remember a doctor should know what is best for them.

"Dr. Caldwell's Syrup Pepsin" is a doctor's prescription for the bowels. Tested by 47 years' practice, it has been found thoroughly effective in relieving constipation and its ills for men, women and children of all ages. It has proven perfectly safe even for babies. Made from fresh, laxative herbs, pure pepsin and other harmless ingredients, it cannot gripe; will not sicken you or weaken you; can be used without harm as often as your breath is bad, your tongue is coated; whenever a headache, bilious, gassy condition warns of constipation.

Next time just take a spoonful of this family doctor's laxative. See how good it tastes; how gently and thoroughly it acts. Then you will know why it has become the world's most popular laxative. Big bottles—all druggists.

SYRUP PEPSIN
A Doctor's Family Laxative

Additions Planned to National Park Service

The rapid development of historical national monuments in the vicinity of Washington promises additional areas to the national park service. The George Washington birthplace national monument at Wakefield, Va., has already been admitted to the system, and the Crampton bill for the Colonial national monument provides for acquisition of Jamestown, Yorktown and Williamsburg.

With the realization of the Shenandoah (Va.) and Great Smoky Mountain National parks, with the enlarged Acadia National park in Maine and the possibility of the creation of the Everglades National park in Florida, there may be established during President Hoover's administration a string of eastern national parks capable of commanding the interest and attention of the nation.—Harlan James in the American Review of Reviews.

In a disaster, we'd rather follow the lead of a man who has a good opinion of himself.

A poker party may be exciting but there is precious little friendliness in it.

Future Fighting Planes Marvels of Efficiency

Airplanes are now able to climb to greater heights than ever before, and the air battle of the future—if there is one—will be fought eight or ten miles above land, out of range of anti-aircraft guns. Designers have been compelled to revolutionize the airplane to enable pilots to live at such a height, and the cockpit of these machines will be totally enclosed. The cabins will be electrically heated and the pilots will wear specially heated clothing to withstand the cold. Air will be provided from cylinders of oxygen, fed through a small mouthpiece. Great care is being taken over this item, and accurate experiments will have to be made, for should the supply of oxygen fail the pilot would lose consciousness in mid-air.

KILLS RATS

NOTHING ELSE

K-R-O (Kills Rats Only) killed 238 rats in 12 hours on a Kansas farm. It is the original product made by a special process of squill, an ingredient recommended by U. S. Government as sure death to rats and mice, but harmless to dogs, cats, poultry or even baby chicks. You can depend on this. K-R-O in a few years has become America's leading rat and mouse killer. Sold by all druggists on a money-back guarantee.

Miles of Wire

The record-breaking suspension bridge over the Hudson river at New York, soon to be completed, contains 107,000 miles of wire in the four great cables which support the structure. Each of these wires is about the thickness of a lead pencil and will withstand a strain of 7,600 pounds.

Resourceful Candidate

Examiner—Suppose you put a thermometer in a patient's mouth and he swallows it, what would you do?

Candidate—Put a gas jet under the patient so that the mercury will rise and I can get the thermometer out again.—Berlin Lustige Blaetter.

Not All Enlightenment

All the great events of this globe are like the globe itself of which one-half is in the full day and the other half is plunged in obscurity.—Voltaire.

Berlin Slow to Change

There are still 14 Kaiser Wilhelm streets in Berlin, only one street of this name having changed its name since the World war.

Daughter Is Healthy Now

"My thirteen-year-old daughter Maxine was troubled with backache and pain when she came into womanhood. I knew Lydia E. Pinkham's Vegetable Compound would help her because I used to take it myself at her age. Now she does not have to stay home from school and her color is good, she eats well and does not complain of being tired. We are recommending the Vegetable Compound to other school girls who need it. You may publish this letter."—Mrs. Floyd Butcher, R. #2, Gridley, Kansas.

RESOLUTION OF INTENTION

No. 30-2

DECLARING INTENTION OF CITY COUNCIL OF THE CITY OF MENLO PARK TO ORDER IMPROVEMENT OF HOOVER STREET AND PORTIONS OF OAK GROVE AND VALPARAISO AVENUES WITHIN SAID CITY.

RESOLVED by the City Council of the City of Menlo Park, State of California, that it is the intention of said City Council to order the following work to be done and improvement to be made in said city, to-wit:

That HOOVER STREET for the full length and full width thereof, and that OAK GROVE AVENUE from a line parallel with and distant forty-five (45) feet southwesterly from the southeasterly prolongation of the center-line of Hoover Street, to a line parallel with and distant forty-five (45) feet northeasterly from the southeasterly prolongation of the center-line of Hoover Street, and that VALPARAISO AVENUE, within the limits of the City of Menlo Park, from a line parallel with and distant forty-five (45) feet southwesterly from the northwesterly prolongation of the center-line of Hoover Street, to a line parallel with and distant forty-five (45) feet northeasterly from the said northwesterly prolongation of the center-line of Hoover Street, all within the limits of the City of Menlo Park and all to the extent and within the lines and limits as all are more fully shown and described on the certain plans, profiles, detailed drawings and specifications hereinafter referred to, to be improved as follows, to-wit:

(1) By grading all of said Hoover Street for the full length and the full width thereof and to the cross-sections as all are more fully shown and described in the certain plans, profiles, detailed drawings and specifications hereinafter referred to; by grading Oak Grove Avenue and Valparaiso Avenue to the extent and within the lines and limits and to the cross-sections as all are more fully shown and described in the certain plans, profiles, detailed drawings and specifications hereinafter referred to.

(2) By constructing hydraulic cement concrete curbs and sidewalks in Hoover Street along both sides of said street for the full length thereof, and in Oak Grove Avenue and in Valparaiso Avenue, all to the extent and within the lines and limits and to the forms, sizes and dimensions and in the particular places, as all are more fully shown and described in the certain plans, profiles, detailed drawings and specifications hereinafter referred to.

(3) That part circle culverts consisting of galvanized corrugated iron sheets and hydraulic cement concrete base, together with inlets, outlets and cleanout boxes with covers, be constructed in Hoover Street, in Oak Grove Avenue and in Valparaiso Avenue.

due, all to the extent and within the lines and limits and all to the forms, sizes, dimensions, depths and in the particular locations as all are more fully shown and described in the certain plans, profiles, detailed drawings and specifications hereinafter referred to.

(4) By paving the roadway of said Hoover Street for the full length thereof and for a width extending from curb to curb, as said curbs are herein proposed to be constructed, and by paving Oak Grove Avenue and Valparaiso Avenue, all to the extent and within the lines and limits and to the widths and dimensions and in the particular locations, as all are more fully shown and described in the certain plans, profiles, detailed drawings and specifications hereinafter referred to, with Colas Wearing Surface one and one half inches in thickness laid upon a water bound rock base four inches in thickness, as all is more fully shown and described in the certain plans, profiles, detailed drawings and specifications hereinafter referred to.

(5) That salt-glazed vitrified iron pipe sewer laterals or service connections four inches in diameter be constructed in said Hoover Street connecting with and extending from the existing main sewer in said street to the property lines on each side of said street, all of the number, forms, sizes, dimensions and to the depths and the particular locations as all are more fully shown and described in the certain plans, profiles, detailed drawings and specifications hereinafter referred to.

Reference is hereby made to that certain patent license agreement of the Shell Oil Company, a corporation, entitled "Agreement, Colas Wearing Surface" dated September 10, 1930, providing for the purchase and use of Colas, a cold asphaltic paving cement manufactured by the said Shell Oil Company under patent and license agreement, which said patent license agreement first above mentioned is now on file in the office of the Clerk of said City of Menlo Park, and the same is hereby made a part hereof.

All of the hereinbefore mentioned work and improvements shall be done and made at the places, in the positions, locations and of the character, quantity, forms, sizes, dimensions and materials, and in the manner as shown and described on the plans, profiles, detailed drawings and specifications therefor heretofore adopted by the City Council of the City of Menlo Park, on the 16th day of September, 1930, by Resolution Adopting Plans, Profiles and Specifications No. 30-2, and now on file in the office of the Clerk of said City, to which said plans, profiles, detailed drawings and specifications

reference is hereby made for the full and detailed description and location of said proposed work and improvements and for further particulars, and the same are made a part hereof.

There is hereby excepted from the above mentioned work and improvements any thereof that is or are already done to the lines and grades as shown on the said plans, profiles, detailed drawings and specifications hereinafter referred to.

The hereinabove named streets and avenues are all as shown and delineated upon that certain map entitled "Map of the City of Menlo Park, San Mateo County, California", approved and adopted July 23, 1929, by the City Council of the City of Menlo Park, which said map so approved and adopted is on file in the office of the City Clerk of said City, and is hereby referred to.

The width of the said streets and avenues, and the said portions thereof, hereinbefore mentioned, and the width of the roadways of said streets and avenues, and the portions thereof, and the width of the sidewalks of said streets and avenues, and the portions thereof, are to be and are as shown on the said plans, profiles and detailed drawings hereinafter referred to.

All of said work shall be done and improvements made to the lines and grades as are shown on the said plans, profiles, detailed drawings and specifications hereinafter referred to, which said grades are hereby adopted and established as the official grades for said streets and avenues, and to which said proposed work and improvement shall be done and made. Said grades are referred to the official base and datum for said City established by said City Council by Resolution entitled "Resolution Establishing Official Base and Datum", adopted November 26th, 1929, on file in the office of the City Clerk of said City, said grade being elevations in feet and decimals thereof above said base and datum.

That said contemplated work and improvements, in the opinion of said City Council is and are of more than local or ordinary public benefit, and therefore said City Council hereby makes the expense of said work and improvements chargeable upon a district, which said district said City Council hereby declares to be the district benefited by said work and improvements and to be assessed to pay the costs and expenses thereof, and which said district is delineated and

shown upon that certain map or plan entitled, "Map Showing Assessment District under Resolution of Intention No. 30-2", approved and adopted by the City Council September 14th, 1930, which said map is now on file in the office of the City Clerk of said City and to which said map reference is hereby made for an accurate and complete description and location of said assessment district, and the same is hereby made a part hereof; provided however that all streets and avenues and portions thereof included within said assessment district and shown on the said map thereof shall be omitted from any assessment levied for the costs and expenses of the aforesaid work and improvements, said streets and avenues and portions thereof now being in public use as public streets and avenues.

NOTICE IS HEREBY GIVEN that serial bonds to represent unpaid assessments and bearing interest at the rate of seven per cent (7%) per annum will be issued hereunder, in the manner provided by the Improvement Bond Act of 1915 of the State of California, as amended, the last installment of which bonds shall mature nine (9) years from the second day of July next succeeding ten (10) months from their date. Except as herein provided for the issuance of serial bonds, all of said proposed work and improvement hereinbefore mentioned shall be done and made pursuant to the "Improvement Act of 1911" of the State of California, as amended.

NOTICE IS HEREBY GIVEN that Tuesday, the 7th day of October, 1930, at the hour of eight o'clock P. M. of said day at the Council Chambers in the City Hall at No. 1080 El Camino Real in said City of Menlo Park, is hereby fixed as the day, hour and place when and where any and all persons having any objections to the proposed work or improvement or to the grades at which said work and improvements are to be done and made or to the district to be assessed for the costs and expenses thereof, may appear before said City Council and show cause why said proposed work and improvements should not be carried out in accordance with this Resolution.

The Clerk of said City shall cause this Resolution of Intention to be published twice in the "Menlo Park Recorder", a newspaper published and circulated in said City of Menlo Park. The Superintendent of Streets of said City shall cause to be conspicuously

posted notices of the passage of said Resolution of Intention, in the time, form and manner and at the places required by law. The City Clerk is hereby directed to forthwith mail a copy of said notice to each and every owner or reputed owner of property within said assessment district whose name and address is known to her. Passed and adopted by the City Council of the City of Menlo Park this 16th day of September, 1930.

CERTIFICATE OF CLERK

I, Fannie I. Kurtz, the undersigned City Clerk of the City of Menlo Park, and ex-officio Clerk of the Council of said City, hereby certify that the foregoing Resolution of Intention No. 30-2 was regularly passed and adopted at a regular meeting of said Council on the 16th day of September, 1930, by the following vote:

AYES: Councilmen Anderson, Crane, Dale, Weeden.

NOES: None.

ABSENT: Councilman Blake.

IN WITNESS WHEREOF I have hereunto set my hand and affixed the Common Seal of said City this 16th day of September, 1930.

(Seal) FANNIE I. KURTZ, Clerk.

First publication in the Menlo Park Recorder September 26, 1930, last publication on October 3, 1930.

Mrs. Frank Derry has returned from a 2 week's vacation spent at Skaggs Springs.

Sweet Sounds First Clarion For The Trackmen

INITIAL MEETING IS SET FOR MONDAY IN GYM; MANY WANTED

Anxious to get an early start in hopes of bringing home Menlo's first conference track championship next spring, Coach Russ Sweet will meet all candidates for the junior college squad next week in the Jaycee gym. The informal conferences will start Monday, and will run until Sweet has interviewed every prospective aspirant.

Led by Captain-elect Harry Stark a large number of veterans are returning, and, with the presence of much capable material in the new freshman class, the chances of Menlo harvesting a bumper crop of victories are good. Bill Miller conference record holder in the pole vault, is expected to again be a mainstay in his event.

Menlo took second place in the Triple-C last year at Sacramento. Daily workouts will start December 1.

READY CASH in the Bank

Is the Kind of Money that Makes Money

Opportunities have a way of presenting themselves to those who are prepared. It is the sum of ready money at the right time that builds a home, starts a business, buys a partnership, secures bargains in real estate and sound investments or in one way or another lays the foundation of a fortune and assures independence.

Getting ahead is largely a matter of getting started saving. Many persons promise themselves to start saving in the future. But the men and women who win are the ones who act. The important thing is to begin saving today.
